

Temperature Sensor - Lesson 1 Formative Assessment Questions

1) Complete the diagram:

- 2) When does water vapor become liquid water?
 - a) Evaporation
 - b) Condensation
 - c) Precipitation
 - d) Collection
- 3) At what point does liquid water become water vapor?
 - a) Evaporation
 - b) Condensation
 - c) Precipitation
 - d) Collection
- 4) Water released from clouds is:
 - a) Evaporation
 - b) Condensation
 - c) Precipitation
 - d) Collection
- 5) The gathering of water in oceans, lakes, rivers, and streams is called:
 - a) Evaporation
 - b) Condensation
 - c) Precipitation
 - d) Collection
- 6) The order of the water cycle doesn't matter.
 - a) True
 - b) False

Temperature Sensor - Lesson 1 Formative Assessment Questions

- 7) The water cycle never ends.
 - a) True
 - b) False
