

Lesson 2.1: Open vs. Closed Circuits: Buttons & Breadboards

Create your dream controller.
What buttons would you include and what would they do?

(After completing today's lesson)
How would you change your dream controller?

What did you build?
Include a drawing of what you created.

How did it help you complete the game?

Mars

Cheeseteroid

Write down one problem you've encountered, if and how you were able to resolve it.

Write down two things you learned today.

Write down one question you have about today's lesson.
