

What do we know about electricity and how it flows through circuits?

Why can't we see the electricity flowing in our circuits?

What did you build?  
Include a drawing of what you created.

How did it help you complete the game?

Power Plant

Rainbow Bridge

Cheeseteroid Return

Write down one problem you've encountered, if and how you were able to resolve it.

Write down two things you learned today.

Write down one question you have about today's lesson.
